

Mission

- Deliver special education services with excellence and compassion to pre-schoolers and their families.
- Support families and staff in implementing Individualized Education Plans (IEPs).
- Achieve school readiness goals aligned with Common Core standards.
- Serve the special needs child in the most natural and least restrictive environment.
- Display flexibility and creativity in order to foster the child's optimal growth and development.
- Individualize programs for each child, whether in the home or in a school.

Kids-Centric

**Preschool
Special Education
Services**

Serving All NYC Boroughs

Inclusion Services

Kids-Centric offers integrated/inclusion programs in collaboration with community preschools, UPK, and Head Start centers throughout the five boroughs of NYC. The Agency provides a full array of special education and clinical services, including speech, counseling, occupational, and physical therapies.

Within Kids-Centric classrooms, children with special needs enjoy the full range of activities with their typically developing peers.

Our early childhood curriculum is aligned with the Common Core and Creative Curriculum and reflects the belief that learning through play should be fun.

Each integrated classroom is staffed by four professionals — two Certified Special Educators and two Early Childhood educators.

SEIT

Kids-Centric offers Special Education Itinerant Teacher (SEIT) services throughout New York City. Our teachers are highly trained and experienced in a variety of special education modalities, including applied behavior analysis (ABA). Each SEIT is mentored by an experienced supervisor.

Kids-Centric provides SEIT services in the home and in child-care settings as mandated.

Kids-Centric staff implements strategies designed to maximize each child's natural strengths and abilities in order to assist each child to participate in and benefit from his/her general education setting.

Kids-Centric values and maintains ongoing communication with parents, clinicians, and school staff.

Evaluations

Kids-Centric is approved by the New York State Education Department as an evaluation site for children 3 - 5 years of age. We provide multi-disciplinary evaluations for children with a suspected delay. Services are available in English and Spanish with translation provided as needed.

Kids-Centric serves children and families residing in New York City.

Children experience a wide range of developmental milestones. If for any reason a parent, a doctor, or a child's school notes concern about a child's progress, an evaluation may be requested.

Evaluations may include:

- Social History
- Educational Evaluation with observation in a natural peer setting
- Psychological Evaluation
- Speech/Language Evaluation
- Occupational Therapy Evaluation
- Physical Therapy Evaluation
- Functional Behavior Assessment
-

Kids-Centric schedules evaluations in a child's school or home setting to promote parent participation in the development and formulation of goals and objectives.
